4) A big problem about the web-site

The secretariat has been making the efforts to make the better web-site, but

Not enough data from **members**

Only you members can enrich and improve the contents, not the secretariat !

At first, please give us materials of 'NARBO person'.

We'll accept from today!

NARBO Person

To Trung Nghia

– Chief of the Red - Thai Binh RBO Office

–

Dr. To Trung Nghia is a senior engineer with 35-year experiences in river basin water resources planning and management in Viet Nam...[\(See more\)](#)

2. Issuance of newsletter

Another important tool to complete the website and offer member's news

Thank you very much!!

Activities (TWINNING PROGRAM)

THE NARBO TWINNING PROGRAM - 2007

Mulianingsih*

The Lucky of Me

Traveling is one of my favorite activities. I have visited some European and Asian countries before and for the next holiday destination I have called some travel agents at the beginning of July 2007 to get information about Japan. I was very excited when, a few days later, I got an assignment to leave for Japan for the personnel exchange program on the Twinning Program between

and presented to the office's members. The warm acceptance they showed to us made me feel like at home.

The Activities

• Site visits

Out of seven river basins exist in Japan we were scheduled to visit four of them, namely Tone, Kiso, Yodo and Yoshino river basins.

- Numata Dam Operation and Maintenance Office (Tone River System):

Visits to Yagisawa Dam, Naramata Dam and the Information Center of Tokyo Electric Power Company

- Research Center:

Visit to some hydraulic models and other research facilities

- Tokuyama Dam Construction Office (Kiso River System):

Visit to dam site: explanation on

We really expect
your active
contribution

Please don't decline
if you are requested to
write manuscript!

Thank you for your kind attention

NARBO is supported
by each member's ownership!
