# Water Security in Citarum River Basin

Presented by :

Herman Idrus

President Director

**JASA TIRTA II PUBLIC CORPORATION**

**5th NARBO General Meeting**

**Chiang Mai, 15 – 18 May 2013**

# 2 The basin condition today

Highly populated area

Deforestation and improper agriculture management

Un-treated waste water

Overpopulated floating-net fisheries

Lack of coordination and integrated action plan

# 3 Perception on Achieving Water Security in Citarum

- Citarum river water should be sufficient to meet the need of life.
- Citarum river water should be clean and healthy.
- Citarum river water should always be updated.
- Citarum river water must be sustainable.
