

3ND THEMATIC WORKSHOP ON WATER RIGHTS AND ALLOCATIONS

Session 1: Internal Discussion

**Jocelyn Fabian-Siapno
Laguna Lake Development Authority
27 November to 1 December 2006
Century Park Sheraton Hotel, Bangkok, Thailand**

APPROACH – NARBO METHODOLOGY

Participants of the Internal Workshop

(September 4, 2006)

Legal Division

Lake Management Division

Integrated Water Resource Management Division

Project Planning and Development Division

Special Concern Division

Community Development Division

Environmental Quality Management Division

Research and Development Division

**TECHNICAL
DIVISIONS**

Issues presented:

Lack of a common policy for the management and development of the lake and its resources

Most plans/programs of different stakeholders are not anchored on the Laguna de Bay master Plan

Debate on the wisdom, size, location and benefits of the Zoning and Management Plan (ZOMAP)

Coverage of water rights in LDB is limited to fishery.

LLDA lacks continuing control over all programs and projects affecting the lake and its region.

LLDA has a wide jurisdictional mandate but it has limited staff to effectively carry out its mandates.

An aerial photograph of a coastal town and bay. The town is built on a hillside, with buildings and roads visible. The bay is large and blue, with many small islands and peninsulas. The sky is light blue with some clouds.

- **Evaluation of the proposals**

Effectiveness of the proposal against the cause

Sustainability (from the viewpoint of organizational capacity, finance, environment and others)

Fairness

Basin wide viewpoint

Consensus building

- **Formulation of the Action Plan**

Results

Selection of one primary issue

The need to formulate and implement a policy on the use of surface water because Laguna de Bay Region is slowly reaching a state where the quantity and quality of freshwater resources are imposing limits on the present use of the resource and on the region's socio-economic development

Thank you!
