PJT 2

Season 1:

Report on The Situation of Dissemination and Discussion

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

Event Held on *Dissemination and Discussion*

1. Committee of Water Allocation of Citarum River Basin (PPTPA) :
Monthly coordination meeting.
2. PJT2 Water Allocation Working (TEPASA) : Weekly coordination
meeting.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

The Situation about the dissemination (1 : General)

1. Good understanding among the audiences on general principles of water allocation and water right.
2. Interactive discussion among the audiences is developed and resulted strong question and qualified recommendations and suggestions.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

The Situation about the dissemination (2 : *Legal Frame Work*)

1. Implementation regulation according to the new law of water resources still under preparation.
2. PJT II still keep the previous role on river basin managements and more enthusiastic to carry well-organized coordination among the stakeholders.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

The Situation about the dissemination (3 : Policy and Plan)

Concept of “Integrated Water Resources Management” is agreed by the audiences, however, the implementations is not simple.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

The Situation about the dissemination (4 : Organization)

1. In fact, lack of basic knowledge could be replaced / recovered by the great attitude of the staffs to increase and achieve maximal experiences in order to execute or create proper decisions and tasks.
2. Meanwhile, program for skill improvements of PJT II staffs still required.
3. At least, in-house training guided by more experienced staffs could be held for middle-low level. Capable and qualified lectures and trainers from related institute is the first priority.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

The Situation about the dissemination (5 : *Financial*)

1. The well-implemented concept of recovery cost by increase the water tariff and hydropower is still difficult to be achieved.
2. Public services activities needs supported fund immediately, Central Government contribution is totally required.
3. Sharing of cost between public services and business still in process and become a first priority.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

The Situation about the dissemination (6 : Participation)

- Participation and awareness from the entire users on public services sector still significantly required, especially during dry season, to obtain proper and effective water allocation and distribution.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

The Situation about the dissemination (7 : Technical)

- Watershed degradation due to erosion (stream flow) is remarkably increased during wet season and followed by inadequate water quantity availability during dry season. Therefore, advance technology and method are required to be implemented in order to solve the current problems.

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

Critical Issues Considered :

1. Water Guarantee
No water guarantee on sustainable water availability
2. Water Conflict
3. Water Technology
Water technology application and development

Presentation on :

3rd Thematic Workshop, Bangkok – Thailand 2006

PJT 2

An aerial photograph of the Jatiluhur Dam in Indonesia. The dam is a long, concrete structure with a spillway on the right side, extending across a wide river. The water is a deep blue-green color. The surrounding landscape is lush green with dense vegetation and some buildings. The text 'Thank You' is overlaid in the center of the image.

Thank You
